### **What Covid-19 safety precautions are you taking?**

All of our bartenders wear face masks. Plastic disposable cups are available upon requests. We have a no-touch menu available. We do not re-use/re-fill glassware without washing it in a high-temp industrial dishwasher first. We have plenty of outdoor and indoor seating allowing customers to socially distance at their discretion. We have hand sanitizer available to use as frequently as needed.

The large parking lot across the street is public city parking (look for the signs!) and is the best option, along with any parking along North Clayton Street and Eaton Street. Please be mindful of the private parking lots (noted by signs) next to our building and across the street - these are towaway zones. Also, please respect the parking areas of our neighbors at Ironshield Brewing.

Our hard seltzers are considered "gluten reduced", however because we regularly handle and produce products. The reason is that they are brewed on the same equipment as our beers, so we can't legally call them 100% Gluten-Free!
